

14T20

Team Leader

The 14T Team Leader is a critical link in the Noncommissioned Officer (NCO) channel. These NCOs live and work with their Soldiers every day and are responsible for their health, welfare and safety. Team Leaders ensure that their Soldiers meet standards in personal appearance and teach them to maintain and account for their individual and unit equipment and property. The Team Leader enforces standards, develops, and trains Soldiers daily in MOS skills and unit missions.
